Music makes life better!
LEARNING TO PLAY AN INSTRUMENT AND MAKING MUSIC ARE LIFE-CHANGING THINGS TO DO, ESPECIALLY FOR CHILDREN.

Starting this in early childhood nurtures many things including perception, motor skills and the ability to learn and retain information. Making music also promotes personal confidence and social skills. These are all beneficial well beyond one's childhood years.

NINO® Percussion offers an outstanding collection of musical instruments designed specifically for children. These more than meet the requirements of early childhood music education and are ideal for kindergarten and school programs, or for music therapy and other music-making activities.

It is important to know that NINO® Percussion instruments are not toys. These are the real thing, designed for safety, durability, attractiveness and playability.

Most importantly, they are in tune and musical. In fact, the only difference between NINO® Percussion instruments and those created for adults is their size and colour.

These appealing and pleasing designs are all made in Germany. And because they are of such a high quality and include a wide variety of sound choices, they are extremely popular with young players of all ages (teachers love them too). Yes, whether played alone or within a group, the performance and sound quality of NINO® Percussion instruments make them the ideal choice for young musicians and those who teach them.

...since 1998
Music brings us together!

Hand Percussion
WOOD CLAVES
Claves are an essential instrument in Latin music and shouldn’t be missing from any percussion set up. The NINO® Wood Claves are available as regular sized models. A second pair was especially designed to fit a child’s hand size.

Sizes
- Small (NINO502)
- Regular (NINO574)

Material
Siam Oak (Hevea brasiliensis Muell.-Arg.)

Feature
- Sold in pairs
- Age rating 3+

Multi-Colored Clave Pack
The NINO® Percussion handheld wooden claves are an outstanding percussion instrument with their cutting, resonant tones and ease of use. These claves are an essential percussion instrument in any classroom band setting. This multi-colored pack contains 6 pairs of claves for fun group collaboration.

Sizes
- Small

Material
Siam Oak (Hevea brasiliensis Muell.-Arg.)

Feature
- 6 multi-colored pairs of small wood claves
- Classic clave sounds
- Blends well with other instruments

Age rating 3+
WOOD HAND CASTANET
The NINO® Wood Hand Castanet is a fun way to make rhythm. Solid wood construction assures good sound and safe play.

Material  Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
Feature  Attractive shape
Age rating  3+

SYNTHETIC RAINSTICKS
The NINO® Rainsticks make it easy for kids to imitate the sound of rain. It’s also light in weight, perfect for young hands, and extremely durable.

Sizes  18" (46 cm) (NINO-SRS1-M)
       24" (61 cm) (NINO-SRS1-L)
Material  Lightweight synthetic
Finish  Sunshine
Age rating  3+ (NINO-SRS1-M)
           5+ (NINO-SRS1-L)

WOODPECKER
The NINO® Woodpecker creates an amazingly realistic “woodpecker” sound, kids will love! It’s a great effect instrument which is also interesting for professional players who look to increase their sound arsenal.

Material  Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
Age rating  3+

WOOD RAINMAKER
Made of birch wood, the NINO® Rainmaker mimics the sound of a rainstorm by simply tipping either end of the instrument, allowing the filling inside to trickle down and create a rushing rain sound. This rainmaker has rounded corners for safe use and is lightweight for children to handle easily.

Sizes  12" long
Material  Baltic Birch (*Betula Pendula*)
Features  Birch wood construction with rounded corners
          Authentic rain sounds with a long sustain
Age rating  5+
JINGLE STICKS
The NINO® Jingle Sticks feature six pairs of Nickel Silver plated jingles firmly mounted on a plastic frame with a handle. The jingle stick can be played like a tambourine, or like a drumstick on a conga, bongo, or djembe. New and interesting sounds can be achieved with this instrument.

Materials  Jingles: Nickel Silver plated steel
            Frame: ABS
Features  Ergonomically shaped handle
          New sound ideas
Colours  BK = Black
      R = Red
        Y = Yellow
Age rating 3+

DOUBLE BELL STICK
The NINO® Double Bell Stick with wooden grip delivers classic, rich sleigh bell sounds in an easy-to-handle design. Two steel bells mounted on each end of the ergonomic wooden handle respond with a musical shimmer that works great as a percussion accent in a classroom music setting.

Size  6” long
Materials  Steel bell
          Wooden handle
Features  Ergonomically shaped handle
          Steel bells mounted on each end
Age rating 3+

BELL STICK
The NINO® Bell Stick is a great way to introduce children to rhythm and beats. Features a single sleigh bell attached to an ergonomically shaped handle and creates a light and subtle sound.

Size  5” long
Materials  Steel bell
          Wooden handle
Features  Ergonomically shaped handle
          Bell mounted on stick
Age rating 3+

SLEIGH BELL
The NINO® Sleigh Bell produces a true sleigh bell sound. An ergonomic grip assures easy control for kids.

Size  4 bells
Materials  Wooden handle
          Steel bells
Features  Ergonomic grip
          True sleigh bell sound
Age rating 3+

RACKET TAMBOURINE
The NINO® Racket Tambourine features a sturdy rattan frame along with a nice sparkling sound. It is available as a one row construction with 9 aluminum jingle pairs. An ergonomically shaped handle makes it perfect for children hands.

Materials  Jingles: Aluminum
            Frame: Rattan
Feature  Ergonomically shaped and padded handle
Age rating 3+
How to play

1. These lightweight sand blocks have two sounds in one – a wood block sound when clapping the pieces and sweeping textures when the inside surfaces are scrubbed together.
2. Keep the beat by clapping together for full wood block sounds.
3. Swipe the inside surfaces together between claps for a fun sweeping sound that adds unique texture to any rhythm.
4. Moving the blocks against each other in any direction draws a rich sound and allows players to find the most comfortable way to find a musical beat.
How to play

1. Hold the handle of the cabasa with one hand while cupping the beads with the other.
2. Rotate your wrists to rub the beads across the metal cylinder to create the scraping sound.

CABASAS

The NINO® Cabasas are made from a wooden cylinder covered with a rippled metal plate, which is surrounded by a net of metal beads. Holding the handle with one hand and scratching the metal beads with the other hand on the metal plate creates the classic cabasa sound. The smaller 2” model was especially designed for a child’s hand.

Sizes
Small (NINO701)
Medium (NINO702)

NINO® Percussion
HAND PERCUSSION

WAH-WAH TUBE
The NINO® Wah-Wah Tube is a tubular effect instrument that delivers smooth, bell-like tones with an incredible sustain. By covering and uncovering the sound hole a "wah wah" effect can be achieved. An amazing effect instrument with suprising results and a lot of fun for kids to play.

Material: Anodized aluminum
Includes: Wooden stick with rubber beater
Colour: R = Red
Age rating: 4+

WOOD KALIMBAS
NINO® Wood Kalimbas are great sounding melodic instruments that make it enjoyable for children to begin learning about music. The chrome plated steel keys tuned to specific notes deliver a light sound that is pleasant for a recreational or classroom setting. The solid wood body projects the notes being played to deliver full and rich tones. These are perfect instruments for developing the fundamentals of rhythm and melody.

Sizes: Small – g#’ c’’ f’’ c’’’ [NINO963GR]
Medium – c’’ c’’ a’’ f’’ e’’ [NINO964R]
Material: Radiata Pine (Pinups Radiata)
Features: Chrome plated steel keys, solid wood construction, light and pleasant sound
Colours: GR = Green
R = Red
Age rating: 5+

C MAJOR SCALE GLOCKENSPIEL
The NINO® Glockenspiel is a compact, child-friendly instrument that is great for learning the musical fundamentals. The NINO® Glockenspiel has a scale from c3 to f4. It also has a b-flat3 and an f-sharp3 key mounted on the side, as supplemental notes that complete the C major scale. The keys may be removed for simplicity and later replaced as the young player develops confidence. Mallets are included.

Tones: c3, d3, e3, f-sharp3, g3, a3,
b-flat3, b3, c4, d4, e4, f4
Material: Wooden body, removable steel keys
Includes: Two wooden mallets
Finish: Matte
Age rating: 5+

GLOCKENSPIEL
The NINO® Glockenspiel is a child-friendly way to start out with music. The jolly fish has colourful keys tuned to a scale of c d e f g a b c’. The keys may be removed for simplicity and later replaced as your child develops confidence. All corners are contained inside the rounded profile of the wooden body. The googly eye and flapping blue tail make the "Fish" Glockenspiel a charming and entertaining character!

Tones: c, d, e, f, g, a, b, c
Material: Body made out of Pine Wood, removable colour-coded metal keys
Includes: Two wooden mallets, Songbook
Finish: Matte
Age rating: 3+
**How to play**

**Stirring Drum**

1. Drag the included beater around the interior of the stirring drum, striking each of the tongues, creating a melodic stirring sound.

2. Turning both wrists while playing the stirring drum will make it easier to play.

3. Strike the tongues individually with the beater to create unique melodies.

---

**WOOD BALL STIRRING DRUM**

The NINO® Wood Ball Stirring Drum is a further development of the familiar stirring drum. When playing the drum, a wooden ball fastened to a nylon string strikes the tonally matched wooden tongues and produces a harmonic sound.

- **Material**: Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
- **Feature**: Ergonomically shaped handle
- **Age rating**: 4+

---

**WOOD BEATER**

The wood beater can be used for most percussion instruments.

- **Material**: Siam Oak (*Hevea brasiliensis* Muell.-Arg.)

---

**WOOD STIRRING DRUM**

The eight wooden tongues produce different pitches when they are struck separately, like playing a xylophone. By stirring in the drum with the included beater a scale can be played.

- **Material**: Siam Oak (*Hevea brasiliensis* Muell.-Arg.)
- **Feature**: Ergonomically shaped handle
- **Includes**: Wooden beater
- **Age rating**: 3+

---

**PERCUSSION MALLETs**

The NINO® Percussion Mallets are great to use with woodblocks, hand drums, and other commonly found percussion instruments. Made with white beech wood with either felt or rubber heads, these mallets are extremely versatile and durable, offering different options for sound and touch.

- **Size**: 10” long
- **Materials**:
  - White Beech
  - Natural felt (NINO970)
  - Rubber (NINO971)
- **Features**:
  - Big felt head, medium hard (NINO970)
  - Small rubber head, medium hard (NINO971)
  - Out of finest white beech
  - Made in Germany
- **Age rating**: 3+
WOOD BLOCKS
The Wood Block is probably one of the oldest rhythm instruments and should be part of any percussion group. The NINO® Wood Blocks have an impressive sound and are available in two sizes.

Sizes
- Medium [NINO21]

The NINO® Shake’n Play is a sound-based memory game for two to four children ages three years and up, and fun for the entire family. Sixteen identical shakers make eight matched pairs. The object of the game is to find the pairs by remembering the sounds and positions on the board.

SHAKE 'N PLAY

Materials  Plastic shakers
          Base out of Siam Oak
                  (Hevea brasiliensis Muell.-Arg.)
Includes     16 shakers (8 pairs)
              Game guide (in 8 languages)
              Wooden base
Colour       Orange
Age rating   3+
How to play

1. Place all the pieces on the board photo side down.

2. Players take turns shaking the pieces trying to find a pair that sounds the same, using the photos on the bottom to confirm they are correct.

3. If a correctly matched pair of shakers is found, then the player may keep the shakers. The player with the most shakers after all the shakers are claimed wins.

Shake ‘n Play
FROM TAMBOURINE TO OCEAN SOUNDS!

Frame Drums
How to play

1. Hold the sea drum horizontally and turn the drum slowly to create the sound of waves flowing in the sea.
2. Striking the sea drum in a horizontal position will create a crashing waves sound.
3. Holding the drum vertical and striking the heads will create a more traditional drum sound with some added rattle for a variety of interesting effects.
WOOD HAND DRUMS
The NINO® Wood Hand Drums are equipped with synthetic heads that are firmly attached on a scalloped wooden frame. These nice sounding drums are light in weight and a proper instrument for children in kindergartens.

Sizes
- 8” (NINO43)
- 10” (NINO27)
- 12” (NINO28)

Materials
- Plastic head
- Wooden frame

Age rating
- 3+ (NINO43)
- 5+ (NINO27, NINO28)

HAND DRUMS WITH HANDLE
These NINO® Hand Drums come with a synthetic head and feature an ergonomically shaped wooden handle for playing comfort.

Sizes
- 8” (NINO42)
- 10” (NINO32)

Materials
- Plastic head
- Wooden frame and handle

Feature
- Ergonomically shaped wooden handle

Age rating
- 3+ (NINO42)
- 4+ (NINO32)
How to play

1. Strike the edge of the hand drum to create a long open tone.
2. Strike the center of the hand drum to create a short closed tone.
3. To tune the hand drum use the provided tuning key. To tighten the head, turn wrench clockwise. To loosen the head, turn counterclockwise. Tightening the drum will create a high pitch, causing a brighter sound. Loosening the head will create a low pitch, causing a darker sound.

Bongos

REAL LATIN SOUND!
The colourful NINO® ABS Drums are not only durable, they also have a powerful sound. Shells made from ABS plastic and synthetic heads guarantee great stability and a long life. With their low weight of about two pounds and their outstanding workmanship, NINO® ABS Drums are also perfectly suitable for toddlers.

ABS BONGOS
The NINO® ABS Bongos are light weight and are perfect instruments for children in kindergarten or elementary school.

- **Size**: 6 1/2” & 7 1/2”
- **Material**: ABS plastic
- **Feature**: Synthetic heads
- **Colours**: G/Y = Green/Yellow
  R = Red
- **Age rating**: 4+
How to play

1. Traditionally, you play the bongo between your legs with the smaller drum on your left. A slap tone gets produced by cupping your fingers slightly as you strike the head of the bongo.

2. To create an open tone hit the edge of the bongo with the knuckly part of your palm and let your fingers bounce off the head.

ABS BONGOS PLUS

A real alternative! The NINO® ABS Bongo Plus is an affordable bongo with a great sound and functional hardware. Shells made of ABS plastic make this bongo lighter than comparable wood models.

Size: 6 1/2” & 7 1/2”
Material: ABS plastic
Features: Hand selected buffalo heads, Rounded rims for playing comfort, Black powder coated hardware
Includes: Tuning key
Colours: B-BK = Blue Shell/Black Hardware, R-BK = Red Shell/Black Hardware, Y-BK = Yellow Shell/Black Hardware
Age rating: 5+
WOOD BONGOS
The NINO® Wood Bongo is an affordable yet high quality instrument with great versatility in sound. Children love the coloured Harlekin design!

**Size**  6 1/2“ & 7 1/2”
**Material**  Siam Oak (Hevea brasiliensis Muell.-Arg.)
**Features**  Hand selected buffalo heads
               Rounded rims for playing comfort
**Includes**  Tuning key
**Colours**  NT-BK = Natural Shell/Black Hardware
             NT-HK = Natural Shell/Harlekin Hardware
**Age rating**  5+

BONGO STAND
The NINO® Bongo Stand has been developed especially for kids and their height in order to offer them a safe and comfortable playing position. It can be tilted in a 90° angle and height adjusted from 31“ up to 45“ so children can play standing up or sitting down. The NINO® Bongo Stand is also suitable for many other common bongo models.

**Material**  Chrome plated steel
**Features**  Fully height adjustable from 31“ to 45”
               90° angle adjustable
               Tripod stand with rubber feet
               Suitable for other common bongo models
**Age rating**  5+
Cajons

CAJON MEANS "BOX" IN SPANISH!
**Cajons**

**BONGO CAJONS**
The NINO® Bongo Cajon is a great sounding cajon in a size suitable for children. The playing surface is divided into two sections, for high and low pitches, just like traditional bongo drums. It can be held between the knees, or set on the floor.

- **Size**: 12" x 5 1/2" x 5"
- **Material**: Baltic Birch (*Betula*)
- **Feature**: High- and low pitch playing surface
- **Colours**: GR = Green, R = Red
- **Age rating**: 3+

**SLAP-TOP CAJON**
This fun "T" shaped Slap-Top Cajon sits comfortably in the lap and is played by striking the top surface with your hands. The Slap-Top Cajon allows players to create an endless combination of beats by hitting low notes in the middle and high notes on the left and right sides of the playing surface. Two ports located on the front project sound forward and help enhance the rhythms.

- **Size**: 15" W x 8" H x 7 ½" D
- **Material**: Baltic Birch (*Betula*)
- **Features**: Low and high notes for various beat combinations
  - Internal snare wires
  - Forward facing sound ports
- **Colour**: Natural
- **Age rating**: 4+
How to play

1. Leaning over and hitting the cajon with your palm toward the middle of the front plate will produce a low end tone.

2. Slapping the cajon on the side or near the top will produce a high pitched tone.

3. Use your foot for a special playing technique.

4. Tilting the cajon makes it more comfortable on your back and wrists.

Cajons

The NINO® Cajon delivers a classic sound and, due to its smaller dimensions, is especially suitable for children. It is made from high quality materials, ensuring long-lasting life for this delightful instrument. Not just for children, professional players may also find a place for the NINO® Cajon in their arsenal of instruments.

Djembe

ABS & ROPE TUNED SYNTHETIC DJEMBES

The new NINO® Rope Tuned Synthetic Djembes with their patented synthetic construction are used to create a djembe that is ultra-lightweight. As a result of that, these drums are a great choice for kids, especially at schools and drum circles. The hand selected goat skin head produces a warm traditional djembe sound. The synthetic head version makes the drum perfect for outdoor playing, as it is unaffected by the weather.

Sizes
- 8", 16" tall (NINO-PDJ1-S-G, NINO-PDJ1-S-F)
- 10", 21" tall (NINO-PDJ1-M-G, NINO-PDJ1-M-F)

Materials
- Synthetic shell
- Hand selected goat head
- Synthetic head
- 4 mm PP rope

Features
- 100% synthetic shell are perfect for outdoor playing
- Ultra-lightweight makes them easy to carry
- High quality PP nylon ropes
- Produces sharp slaps and deep bass tones
- Non-slip rubber bottom

Finish

ABS DJEMBES

The multi-coloured NINO® ABS Djembes come pretuned and ready to play right out of the box.

Size
- 8"

Material
- ABS plastic

Feature
- Synthetic heads

Includes
- Nylon strap

Colours
- G/Y = Green/Yellow
- R/BK = Red/Black

Age rating
- 5+
How to play

1. Place the djembe between your legs, crossing your ankles in front of you for support. Keeping your hands relaxed, strike the head of the drum near the edge for strong open and slap tones. Striking the drum in the middle will produce a powerful bass tone.

2. Using those tones, and alternating between your right and left hands, create your own patterns and rhythms.

3. To tune the djembe use the provided tuning wrench. To tighten the head, turn wrench clockwise. To loosen the head, turn counterclockwise. Tightening the drum will create a high pitch, causing a brighter sound. Loosening the head will create a low pitch, causing a darker sound.

Djembes

WOOD DJEMBE

The Djembe is the most popular African drum. Even first time players are quickly able to draw different tones from this great instrument. The NINO® Wood Djembe has a diameter of 10” and a height of 21” and is the perfect drum for children at school.

Size 10”
21” tall

Features Hand selected goat head
Rounded rim for playing comfort
Black powder coated hardware
Includes Tuning key
Colour NT = Natural
Age rating 5+

WOOD DJEMBE

NINO® Percussion

NINO48NT
Congas

FEEL THE RHYTHM!
How to play

1. Keeping your hands relaxed, strike the head of the conga near the edge for strong open and slap tones. Striking the drum in the middle will produce a powerful bass tone.

2. Use the two congas together to create fun and interesting rhythmic and melodic patterns and grooves.

3. To tune the conga use the provided tuning wrench. To tighten the head, turn wrench clockwise. To loosen the head, turn counterclockwise.
ACTIONS SPEAK LOUDER THAN WORDS!
This is why we take our responsibility seriously and commit ourselves to several environmental projects. Our specially developed vacuum distillation saves 90,000 liters of drinking water, the world’s most threatened resource. In order to minimize our electricity usage, all of our buildings are equipped with motion sensors and our centralized electricity controls prevents the waste of this resource. With our solarpower-plant (Photovoltaic-System) we produce enough power to supply 170 houses with electricity. All of the electricity used in our facility is produced from renewable energies. Thus we reduced our carbon monoxide emission from 200 tons per year down to zero. Reusable materials like paper, plastic or styrofoam are too precious to be wasted. We separate them for efficient recycling.

WOOD FROM ENVIRONMENTALLY CONTROLLED WOOD PLANTATION
Thailand is a logical manufacturing base for percussion instruments due to the fact that the Hevea Brasiliensis, which was indigenous to Brazil and later transported by way England to Asia, has been commercially grown in Southeast Asia during the last century on plantation farms for the production of Latex. The traditional plantation of Siam Oak (Hevea brasiliensis Muell.-Arg.) meets all ecological requirements. Same counts for the plantation grown Mahogany Wood from Indonesia, which we use for our Original African Style Rope Tuned Wood Djembes. In a natural evolution, new trees are planted and the older ones, which have ceased to provide latex, are harvested. In this way, plenty of raw material is available and the valuable rainforest eco-system is preserved.

MATERIAL & ECOLOGY
Wood is a raw material which is present in almost every part of our daily life. Trees are an important part of the complex eco-system while healthy forests are imperative for the Earth’s atmosphere. Only plantation grown Wood is used for the making of NINO® percussion instruments. This wood fulfills the CITES regulations (“Convention on International Trade in Endangered Species of Wild Fauna and Flora”) and originates from environmentally controlled forests from industrial wood plantations.
