Gloss Mocha Brown (GMC), Piano Black (PBK)

PVC/SRP: € 799.00

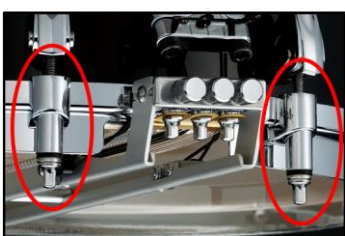

Multi Snare Frame

- Newly developed Multi Snare Frame unit enables adjusting tension of 3 different snare wires and distance from the snare side head separately.
- Tensions of 3 snare wires could be adjusted both individually and altogether.
- Frame unit is detachable with keeping the setting of snare wire tensions for the secure transportation and quick set up.

3x Different Snare Wires

- a. Nickel Wound Round Guitar Strings (6 strands) gives great sensitivity especially for the sensitive touch of Pianissimo notes.
- b. Black Nylon Coated Stainless Steel Wire (6 strands) provides rich body and control the sustain of shell.
- c. Hi-Carbon Coil Snare Wire (6 strands) offers the well balanced tone of crisp snare sound.

Long Tension Bolt

The long tension bolts protect the Multi Snare Frame when the drum is put down or not in use. It also prevents the assembly from being impeded in any way while the drum is being played.

Linear Drive Strainer

The Linear Drive strainer works together with the Multi Snare Frame to provide quiet engagement and disengagement of the snare wires.

6mm, 7ply Maple Shell

Starphonic Concert snare series feature traditional 100% maple shell which gives warm, versatile tone, resonant sound with great sensitivity and responsibility.

Freedom Lug & Claw Hook

The Freedom lugs allows for simply loosening the tension rods which releases the hooks and frees the hoop, allowing for fast replacement of snare heads.

Grooved Straight Hoop

Specially designed upright straight hoop provides more sensitivity. It also allows players to hit around edge area of snare drum.

Remo Renaissance Diplomat Head

The Diplomat Renaissance head is equipped for batter side which gives a warm, dark tone with a soft feel. For the bottom side, REMO diplomat hazy snare side head is equipped.

NEW STARPHONIC Concert Snare Drum
6"x14" Snare Drum with Hybrid Snare Wire and Fine Adjuster

Available: May 2020

CMP146-GCR

CMP146

- **Size:** 6"x14"
- **Shell:** 6.0mm, 7ply 100% Maple shell
- **Hoop:** Grooved Straight Hoop (10 lugs)
- **Strainer:** MLS50A Linear Drive Strainer
- **Butt:** MLS50B
- **Snare Wire:** Hybrid Snare Wire
Nickel Wound Round Guitar Strings (6 strands in the center)
Black Nylon Coated Stainless Steel Wire (3 strands each outside)
- **Available Finishes:**
Gloss Cherry Red (GCR), Piano Black (PBK)

PVC/SRP: € 599.00

Hybrid Snare Wire

TAMA's unique hybrid snare wire is composed of two totally different characters of straight snare wires.

6 strands of Nickel Wound Round Guitar Strings in the center gives great sensitivity and crisp tone.

3 strands each of Black Nylon Coated Stainless Steel Wire in the outside provides rich body and control the sustain of shell.

Linear Drive Strainer w/ Fine Adjuster

By turning round knob below the strainer, you can change the tension of 6 strands of Nickel Wound Round Guitar Strings with maintaining the tension of Black Nylon Coated Stainless Steel Wire. This helps adjust sensitivity of snare wire without choking resonance of snare drum.

The Linear Drive strainer provides quiet engagement and disengagement of the snare wires.

PVC/SRP: € 799.00

5mm, 6ply Maple Shells

Rich resonance of the TAMA concert toms were achieved by utilizing carefully selected maple shells and focusing seriously on shell molding and the bearing edge shape.

Direct-Flexi Mount

Direct-Flexi Mount utilizes a two-piece structure which allows some slight horizontal play when striking the drum. This controls the vibration of the shell while still allowing it to resonate more freely than traditional direct-to-shell mounts.

Individual Toms

Diameter	Depth	Model No.	PVC/SRP
6"	6"	CCLT6A	€ 139.00
8"	7"	CCLT8A	€ 149.00
