REGULAR SNARE DRUMS

MASTERCRAFT "THE BELL BRASS"

In 1980, the TAMA Mastercraft Bell Brass snare drum was born. At the time, the Bell Brass was designed to match the explosive sounds of a new decade in music and delivered the purest snare sound ever achieved. Widely used in heavy rock music of the 80s and 90s, TAMA's Bell Brass snare drum came to simply be known as "THE TERMINATOR". As aggressive of a sound it produced, its versatility was unmatched as it found its way into the hands of the world's top Jazz & Fusion drummers of the era. Now, nearly half a century later, the TAMA Mastercraft "The Bell Brass" 50th Anniversary Reissue pays tribute to this legendary sound. Featuring a special alloy of copper and tin and molded into a 3mm thick shell, this super heavy bell brass shell produces extreme volume and outstanding tonal range. Faithfully reproduced to original specifications as much as modern technology allows, the Mastercraft "The Bell Brass" 50th Anniversary Reissue brings the iconic & timeless sound to drummers once again.

LIMITED SNARE DRUMS

50TH LIMITED MASTERCRAFT ROSEWOOD

In the 1980s, TAMA's Mastercraft Rosewood Snare Drum was the first and only drum of its kind. As a hard and dense material, Rosewood is commonly used as guitar fretboards, and at the time was only found on drums as a single outer-ply veneer. Full Rosewood drums are extremely difficult to produce, but their pure sound and dark tone makes them extremely popular among drummers looking for a new sound. Not long after the original release of the Mastercraft Rosewood Snare Drum, the TAMA brand became synonymous with Rosewood. This 50th Anniversary Limited Edition model faithfully reproduces the sound of the past. Familiar to those who were there at the beginning, and an exciting new discovery to those who weren't.

TAMA STAR WALNUT

Lacquer Finishes

STAR is the flagship line for TAMA drums. It takes the knowledge and research we cultivated for the Starclassic series to the next level, by reexamining every detail to enhance shell resonance. Walnut has long been favored by furniture makers for both its beauty and durability. As a drum shell material, Walnut's naturally EQ'ed tone has been praised by the drum community for both the stage and the studio. The STAR Walnut shells project booming low end with enough cut to be heard through any mix.

STARCLASSIC MAPLE

Exotic Finishes

In the '80s TAMA's Superstars and Imperialstars reigned supreme - the perfect drums for the times. But TAMA's builders and designers wanted something that transcended trends, something timeless - drums that understood a player's passion and allowed the expression of every genre, style, mood, and technique. They created Starclassic Maple drums...and ignited the thin-shell revolution. And now the Exotic Finish line offers beautiful, one-of-a-kind exotic wood exteriors for that extra luxurious touch. Numerous options are available to meet the varied and critical needs of professional drummers including a selection of about 30 different shell sizes. Starclassic Maple also features three shell hardware finishes to choose from: Black Nickel, Chrome and Smoked Black Nickel. Starclassic Maple is simply an unprecedented combination of sight and sound.

STARCLASSIC WALNUT/BIRCH

Lacquer Finishes

Exploring limitless possibilities, our result in the wake of countless experimentation came in the form of the Hybrid Shell Walnut/Birch: combining the superior quality warmth and mid to low frequency tone of the increasingly popular and truly unique Walnut, with the well-defined and uncompromisingly solid attack of Birch.

Whilst we successfully preserved their unique sonic trademarks, the characteristics of both Walnut and Birch blend to persuade a very focused sound that would define itself with great distinction within a musical ensemble; married with controlled sustain and clarity; all sealed with an undeniably palpable feeling of warmth and resonance when performed.

SUPERSTAR CLASSIC

Exotic Finishes

For more than forty years, the Superstar name has stood for groundbreaking design, superior build quality, sterling tone, and clear projection. Superstar Classic once again upholds tradition by raising the bar for discerning drummers—and remarkably—does it while also lowering the price. Drawing on Superstar of the past, its classic TAMA T-shape badge and streamlined low-mass single lugs point to the simpler state of art of the 70's, while the ingenious Star-Mount system and the thinner gauge 100% maple shells eclipse anything in its class.

BASS DRUM HOOP GUARD

MBRG14
TAMA Hoop Guards can be securely locked to bass drum hoops using the friction of rubber cushions. The rubber cushions protect the hoops from scratches and the Hoop Guards protect the hoops from rim shots.
